

# 2022

## CAREER DESTINATIONS SUMMARY

## 2022 Career Destinations

Each year Career, Internship & Student Employment Services at Montana State University conducts a survey to understand key indicators regarding MSU student graduate outcomes. These data are central to some of our assessment measures and are important as we work to improve student educational and career outcomes. The MSU graduates surveyed in 2022 (Summer 2021, Fall 2021, and Spring 2022) entered varied and changing employment landscapes due to the COVID-19 pandemic. Compared to previous survey periods, we observe the effects of the pandemic, particularly relative to the percentage of graduates who reported working full-time. The contents of this document reflect relevant information regarding the transition from college to career/graduate school, gathered from graduates entering the job market during unprecedented shifts in the economy and labor market.

There were 3,384 graduates and 1174 respondents (34.7% response rate).

- 76.9% (n=903) indicated they were employed full-time.
- 13.6% (n=160) indicated they were continuing education.
- 3.7% (n=44) indicated they were not employed, but seeking employment.
- 4.2% (n=49) indicated they were employed part-time.
- 1.5% (n=18) indicated they were not employed and not seeking employment.

### Salary<sup>1</sup> Data Summary\*

Bachelor's	Master's	Doctorate
\$57,306	\$63,134	\$80,773

n Bachelor's = 570  
n Master's = 138  
n Doctorate = 38

### Salary<sup>1</sup> Data Summary\*

1. Mean salary calculated for graduates reporting full-time employment. Reported salaries of less than \$15,000 and greater than \$200,000 were removed.  
 2. Graduates indicating "Continuing Education" as their primary graduation outcome (n=236) were not able to indicate an employment status and salary, thereby reducing the overall percentage of graduates reporting a salary as compared to previous years. Further, not all graduates who indicated they were employed full-time reported a starting salary (n=228).  
 3. "Unemployed" data includes graduates not employed and those indicating "Continuing Education" as their primary outcome.  
 \*Graduates who received multiple degrees may be reported under more than one college.  
 \*\*Graduates who received multiple degrees may be reported under more than one concentration.  
 ID: insufficient data due to limited graduates/low response rate

1. Mean salary calculated for graduates reporting full-time employment. Reported salaries of less than \$15,000 and greater than \$200,000 were removed.

2. Graduates indicating "Continuing Education" as their primary graduation outcome (n=236) were not able to indicate an employment status and salary, thereby reducing the overall percentage of graduates reporting a salary as compared to previous years. Further, not all graduates who indicated they were employed full-time reported a starting salary (n=228).

3. "Unemployed" data includes graduates not employed and those indicating "Continuing Education" as their primary outcome.

\*Graduates who received multiple degrees may be reported under more than one college.

\*\*Graduates who received multiple degrees may be reported under more than one concentration.

1. Mean salary calculated for graduates reporting full-time employment. Reported salaries of less than \$15,000 and greater than \$200,000 were removed.

2. Graduates indicating "Continuing Education" as their primary graduation outcome (n=236) were not able to indicate an employment status and salary, thereby reducing the overall percentage of graduates reporting a salary as compared to previous years. Further, not all graduates who indicated they were employed full-time reported a starting salary (n=228).

3. "Unemployed" data includes graduates not employed and those indicating "Continuing Education" as their primary outcome.

\*Graduates who received multiple degrees may be reported under more than one college.

\*\*Graduates who received multiple degrees may be reported under more than one concentration.

1. Mean salary calculated for graduates reporting full-time employment. Reported salaries of less than \$15,000 and greater than \$200,000 were removed.

2. Graduates indicating "Continuing Education" as their primary graduation outcome (n=236) were not able to indicate an employment status and salary, thereby reducing the overall percentage of graduates reporting a salary as compared to previous years. Further, not all graduates who indicated they were employed full-time reported a starting salary (n=228).

3. "Unemployed" data includes graduates not employed and those indicating "Continuing Education" as their primary outcome.

\*Graduates who received multiple degrees may be reported under more than one college.

\*\*Graduates who received multiple degrees may be reported under more than one concentration.
