Join the International Association for Community Development at our 65th anniversary celebration and explore the theme of "*Participation, Power and Progress: Community Development*"

life is corroborated by research from many disciplines. Yet, by the same token, moving toward a more egalitarian society would realign most aspects of economic and social life for the better.

Medicaid Work Requirements Could Create Additional Problems in Rural The Daily Yonder | [READ STORY](#)

Eight states have asked the federal government for permission to make Medicaid recipients work or look for work to qualify for benefits. But one in four participants is already working or wants to work, researchers say. The work requirements would affect about a third of Medicaid recipients.

Energy Efficiency and Industry: The National Trend American Council for an Energy-Efficient Economy | [READ STORY](#)

The industrial sector is unique among end-use sectors in that its energy intensity has declined

towards 2030 - Our Analysis, Our Actions."

The [2017 CDS-NACDEP Conference Proceedings](#) are now available [online](#).

Devex, September 12

World Resources Institute | [READ STORY](#)

As major global greenhouse gas emitters, U.S. states have the economic heft and legislative authority to move the United States toward much lower emissions and cleaner energy. While many have done so in the last decade, some remain stuck in the high-emitting past.
