G. ANNUAL EXPENSES

G0. Please provide the URL of your institution's net price calculator: <http://www.montana.edu/tuitioncalc/>

Provide 2012-2013 academic year costs of attendance for the following categories that are applicable to your institution.

G1. Undergraduate full-time tuition, required fees, room and board

List the typical tuition, required fees, and room and board for a full-time undergraduate student for the **FULL 2012-2013** academic year (30 semester hours or 45 quarter hours for institutions that derive annual tuition by multiplying credit hour cost by number of credits). A full academic year refers to the period of time generally extending from September to June; usually equated to two semesters, two trimesters, three quarters, or the period covered by a four-one-four plan. Room and board is defined as double occupancy and 19 meals per week or the maximum meal plan. **Required fees** include only charges that all full-time students must pay that are *not* included in tuition (e.g., registration, health, or activity fees.) Do *not* include optional fees (e.g., parking, laboratory use).

PUBLIC INSTITUTION Tuition:		
In-district:

ROOM AND BOARD: (on-campus)	8,070	8,070
ROOM ONLY: (on-campus)	N/A	N/A

* Fees listed are based on the average between in-state and out-of-state fees and are charged to full-time students (12 or more credits per semester for an academic year). Some fees are fixed charges while others vary with the number of credits taken. Some fees are charged only to students carrying seven or more credits.

** An additional administrative fee to \$125/semester will be charged to international students who come to Montana State University.

Other: All students will also be charged a supplemental health insurance fee every semester. A student who already has adequate insurance and provides proof of coverage may request a waiver.

G2. Number of credits per term a student can take for the stated full-time tuition 12 minimum no maximum

G3. Do tuition and fees vary by year of study (e.g., sophomore, junior, senior)? Yes No

G4. If tuition and fees vary by undergraduate instructional program, describe briefly: Some courses require additional fees.

Common Data Set 2012-13, Montana State University

I-3. Undergraduate Class Size

In the table below, please use the following definitions to report information about the size of classes and class sections offered in the Fall 2012 term.

Class Sections: A class section is an organized course offered for credit, identified by discipline and number, meeting at a stated time or times in a classroom or similar setting, and not a subsection such as a laboratory or discussion session. Undergraduate class sections are defined as any sections in which at least one degree-seeking undergraduate student is enrolled for credit. Exclude distance learning classes and noncredit classes and individual instruction such as dissertation or thesis research, music instruction, or one-to-one readings. Exclude students in independent study, co-operative programs, internships, foreign language taped tutor sessions, practicums, and all students in one-on-one classes. Each class section should be counted only once and should not be duplicated because of course catalog cross-listings.

Class Subsections: A class subsection includes any subsection of a course, such as laboratory, recitation, and discussion subsections that are supplementary in nature and are scheduled to meet separately from the lecture portion of the course. Undergraduate subsections are defined as any subsections of courses in which degree-seeking undergraduate students enrolled for credit. As above, exclude noncredit classes and individual instruction such as dissertation or thesis research, music instruction, or one-to-one readings. Each class subsection should be counted only once and should not be duplicated because of cross-listings.

Using the above definitions, please report for each of the following class-size intervals the number of *class sections* and *class subsections* offered in Fall 2012. For example, a lecture class with 800 students who met at another time in 40 separate labs with 20 students should be counted once in the “100+” column in the class section column and 40 times under the “20-29” column of the class subsections table.

J. DEGREES CONFERRED

Degrees conferred between July 1, 2011 and June 30, 2012. For each of the following discipline areas, provide the percentage of diplomas/certificates, associate, and bachelor's degrees awarded. To determine the percentage, use majors, not headcount (e.g., students with one degree but a double major will be represented twice). Calculate the percentage from your institution's IPEDS Completions by using the sum of 1st and 2nd majors for each CIP code as the numerator and the sum of the Grand Total by 1st Majors and the Grand Total by 2nd major as the denominator. If you prefer, you can compute the percentages using 1st majors only.
