

Looking for experience in fish science?

Consider applying to be a creel clerk!

We seek dedicated, motivated, and hard-working individuals to administer creel surveys (angler surveys) for an ongoing collaborative PhD project between Montana State University and Montana Fish, Wildlife and Parks Department. Successful candidates will gain valuable work experience pertaining to fish science, recreational fisheries management, and receive financial compensation.

**If interested send curriculum vitae or resume to
Michael Lant (michael.lant@montana.edu).**
